Time: 11 AM to 5 PM

Venue: S 1 Hall, KIMS, Karad

Name of the Speaker: Dr. Mrs. Latha Venkatesan

No. of Participant: 21 faculty and other

Includes Level of Event: College Level

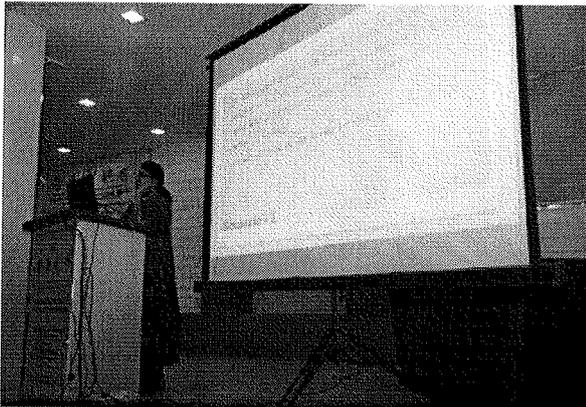

Organized individually by: Krishna Institute of Nursing Sciences, Karad

Brief Description of the Programme:

Interesting and amazing work shop on nursing empowerment. In fact it is an empowering lecture. She put forwarded some situations where the nurses should have gone completely blank, where they are not able to apply the ethics and where they are should abide to the higher authority. She spot lighted that nurses are not the dolls in the hands of management or doctors; more than that they are the ones who are really with the patient round the clock. They know their feelings and emotions. She pointed out that nurses should not be the angels but at times they should wear the black gowns to be the advocates of those patients who are giving faith in the health care system as life matters more.

Pretest and Posttest carried out.

The absolute learning gain >90% after the analysis of test.

Inauguration programme was presided by our chief guest Dr. S. T. Mohite Dean,
Faculty of Medical Sciences, KIMS, Karad

-After that workshop was arranged with panel discussion in presence of 81 delegates.
Programme was ended with Vote of Thanks.

Outcome of this CME

Fever is the commonest presenting complaint that clinicians face in practice. Though it is well known that fever alone doesn't cause any injury to the child except perhaps in cases of heat stroke and febrile status epileptics but still it is a cause of parental worry. Many times this is either treated with unnecessary antibiotics or put to unwarranted investigation. Hence, it is extremely important to recognize significant fever that requires urgent attention. This CME helped all the delegates to gain a concise and accurate approach to fever. Specifically, outcome can be described:
For PG students - Students became acquainted with basics of fever, common associated presenting complaints and approach to different patients. They became well versed with required history taking and clinical examination. They learned about emergency management of various accompanying complications. Well - designed presentations by the faculty helped students attain great amount of knowledge in a short span of time.

For Faculty and Private Practitioners - Aside from revision of basic concepts, the CME helped them understand the value of relevant investigations and rational drug usage. With the ever increasing incidence of drug resistance, such upto date knowledge of protocols and guidelines is the need of the hour for all pediatricians. Demonstration of successful outcome even in complicated cases by the faculty was definitely inspiring to all other practitioners among the delegates.

For Government Medical Officers -

As they form an essential component of the health care sector of the country with arguably a wider outreach than many private practitioners, it is essential for them to be aware of all latest guidelines and confident in following them. This CME helped achieve that purpose by giving them revision of basics, guidelines for quick recognition of symptoms and emergency and referral protocols.

Name of the Speaker: Mr. Vijay Kanse Administrative Nursing Supervisor, City of Hope, California.
An Alumni of Krishna Institute of Nursing Sciences 1983-1986.

Includes Level of Event: College Level

Organized individually by: Krishna Institute of Medical Sciences, Karad

Objectives of the Programme:

1. To Identify the role of advance nurse in different patient care setting

Brief Description of the Programme:

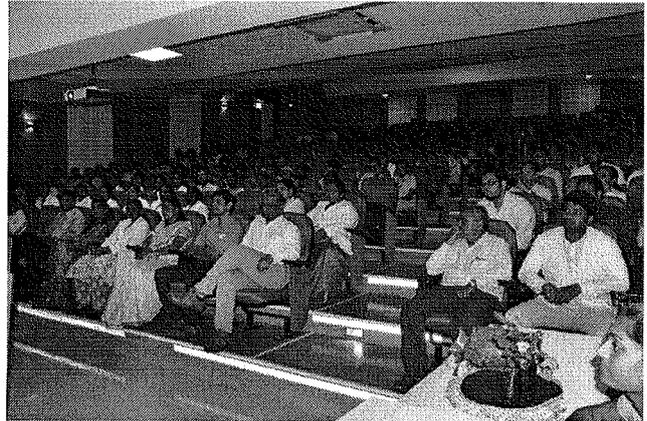

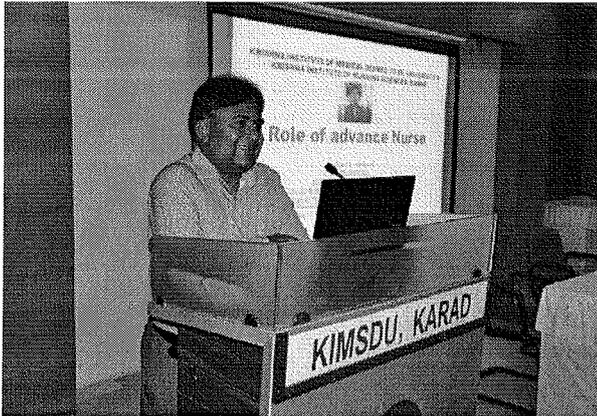

The session was entirely on theme and was very motivational. During this session Mr. Vijay Kanse keep asking questions to the participants about the nursing practices. Likewise participants were also cleared their doubts as well as the comparison of the standards, protocol and syllabus in California and in India. After attending this session, participants came to know more about their career which they want to become.

Basically all of us enjoyed the session. It helps the participants to gain a lot of confidence in what they want to achieve in their life.

The session was ended with vote of thanks.

SUB: REPORT OF CME Haematology

DATE: 26/09/2018

VENUE: KIMS, KARAD.

ORGANISERS: Department of MEDICINE & Staff scientific society, KIMS.

The programme started in the morning at 8.30AM, with delegates getting themselves registered followed by Breakfast. At 9.30 am the inauguration programme was started. The Dignitaries on the dias,

Dignitary	Designation
Dr. S.T.Mohite	Dean Krishna Hospital
Dr. A.Y.Kshirsagar	Medical Director Krishna Hospital
Dr. Shilpa Patil	Organising Secretary Of The Workshop
Dr. Sanjay Patil	Joint Secretary, Staff Scientific Society. Professor Obgy Dept

Goddess Saraswati was invoked by Lamp kindling & reciting a shloka. Dr. A.P.Patange welcomed Dr. S.T.Mohite, DEAN to the Workshop with a floral boquet. Dr. Archana gautam welcomed Dr. A.Y.Kshirsagar, Medical director with a floral boquet. Dr. Rahul patil welcomed Dr. Dr.Sanjay Patil, with a floral boquet. Dr. Abhijit patil welcomed Dr. Shilpa Patil with a floral boquet. Dr. Amit botre welcomed Dr. Abhijeet Ganpule with a boquet. Dr. V.C. Patil welcomed Dr. Gautami Ganpule with a boquet. Dr. Rahul Patil welcomed Dr. Sandeep Yadav with a boquet. Dr. Shilpa Patil welcomed Dr. V.C. Patil with a boquet. Dr. Abhijit patil welcomed the MMC observers Dr. Nitin Narendrakumar Jadhav to the CME.

A brief introduction was given regarding the state of art technology available under department of Medicine at KIMS.

PRE TEST papers were given to the delegates and later collected back.

Later inaugural speech was given by Dr. SANJAY PATIL.

Vote of thanks was presented by Dr. Shilpa Patil.

All the dignitaries were thanked for sparing their valuable time for the workshop.

SESSION	TIME	TOPIC	SPEAKER	CHAIR PERSON
1	9.30-10.30 AM	Approach to Bleeding Disorders	Dr. Abhijeet Ganpule	Dr. Dilip Patil
2	10.30-10.45 AM	Discussion		
3	10.45-11.45 AM	Complete blood Count	Dr. Gautami Ganpule	Dr. Vasant devkar
	11.45-12.00 PM	Discussion		
4	12.00-1.00 PM	Blood Banking Current Scenario	Dr. Sandeep Yadav	Dr. A. P. Patange
5	2.15 - 3.00 PM	Blood transfusion & component transfusion	Dr. V.C Patil Prof & HOD	Dr Nitin Jadhav
6	3.00pm-3.45pm	Platelet Disorders	Dr. Shilpa Patil Associate Prof	Dr Makrand Mane
7	3.45 pm - 4.15	Discussion	All	
4.15 Pm Vote of Thanks				

Discussion took place at the end of every session. Every session was brilliant, all the delegates especially the residents were enthusiastic in participating in discussion.

POST TEST papers were given to the delegates at the end and later collected back.

Dean
Krishna Institute of Medical Sciences,
KIMSDU, Karad

Few questions asked by the delegates to the speakers.

Beautiful experiences shared by the speakers

Chair persons at the end of every session threw some light on the topics as well from their aspect. All the speakers & Chair persons were felicitated at the end of each session.

Photographic session took place from 1.15pm to 1.30pm where all the speakers, organisers & delegates participated.

Lunch break commenced at 1.30 pm and continued till 2.15 pm. A variety of vegetarian dishes were served. All the delegates were happy to have delicious food that was being served to them. During the lunch residents discussed with the speakers regarding their doubts and routine problems faced with mechanical ventilation.

Blood transfusion & component transfusion, Platelet Disorders were covered in post lunch session as per schedule.

From 3.45pm, there was a Discussion regarding all the Pre/Post test questions by all the speakers. All the delegates, be it Residents or Consultants actively participated in the discussion. All the doubts of the delegates were in detail discussed by the Speakers.

The session ended at 5.00PM in the evening with all the delegates satisfied with amount of knowledge gained and the speakers satisfied with the response from delegates.

All the delegates at the end requested for similar kind of CME s to be conducted frequently by the department of medicine and congratulated the organising team for conducting such an extraordinary CME.

Event Report

Name of the Topic : “Common Sense Mechanics with Micro-Implants For Class II and III Corrections: Hands-on/ Demonstration”

Date: 10/10/2018

Time: 10:00 AM – 3 PM

Venue : Lecture Hall No-3, School of Dental Sciences, KIMSDU, Karad

Name of the Speaker : Dr. Adith Venugopal

BDS MS, PhD (South Korea) Clinical Instructor and Lecturer of Orthodontics & Oentofacia Orthopaedics at International University, Phnom Penh & University of Puthisastra, Phnom Penh.

No. of Participant : 81

Introduction of Programme : Department Of Orthodontics, School of Dental Sciences, KIMSDU in collaboration with South West Maharashtra Orthodontic Study Group has conducted a lecture and hands-on program on 10th October 2018 at lecture hall no.3, SDS.

The lecture was mainly aimed at the post graduate students. The session was chaired by the Dean- Dr. Shashikiran N.D, Professor and Head of Department of Orthodontics: Or. Chanamallappa.R. Kolhapur zone, Dr. Yusuf Ahammed for Satara zone.

Includes Level of Event – College level

Organized by : Department of Orthodontics, SDS, KIMSDU in collaboration with South West Maharashtra Orthodontic Study Group.

Schedule of the Programme : Introduction of speaker followed by main lecture, felicitation of the guest speaker

Objectives of the Programme : 1. Esthetic Restorative Therapy demonstration

Brief Description of the Programme : . A Total of 81 Delegates had attended the program which included 48 Post Graduates and 33 staff members. The Post Graduate students from colleges in the South West Maharashtra region and Kamataka had attended the program. The Program was inaugurated with the traditional lamp lighting ceremony.. All the delegates were then welcomed by Prof. Dr. Chanamallappa.R.Ganiger. The delegates were then addressed by the Dean. Dr. Shashikiran N.D. Later, Dr. Renuka Pawar introduced the guest speaker Dr. Adith Venugopal after which there was a tea break of 10 minutes.

It was a full day program. The Guest Speaker started with the lecture on Common Sense Mechanics with Micro-Implants for Class II and III Corrections which covered the various biomechanical aspects of microimplants followed by the guidelines for placing the implants for its various applications in orthodontics..

MCKENZIE OVERVIEW CIRCULAR

Dear Physio Friends,

Start smart with MDT. Our reliable assessment strategy is your compass to treatment solutions. Why McKenzie? and why is it said that a McKenzie trained therapist gets better results in any orthopedic conditions, or any musculoskeletal disorders of spine and extremities.

We present a short Overview for students and Physiotherapists who have not done the McKenzie courses. The Overview would answer a lot of the questions and queries that you have about the well known McKenzie System. We understand that online search does not give any much information on McKenzie, due to it being copyrighted as Intellectual Property of McKenzie Institute International.

Contents of overview:

1. What is the McKenzie Concept or Mechanical Diagnosis and Therapy.
2. Why is the McKenzie System Diagnostic, Prognostic, Therapeutic and Prophylactic
3. What role does Positions, Postures, Movements and Activities play in the assessment using McKenzie concept?
4. What is Centralization and Peripheralization
5. Details of the 3 syndromes, more than what is found in text books.
6. What is the fourth sub classification of 'Other' in the McKenzie concept.
7. Brief talk on the assessment process
8. Definition of Symptomatic responses and Mechanical responses.
9. Principles of Management, in the 3 syndromes.
10. Principles of Management in various directional preferences.

Evidences:

1. Why classification system, why 3 syndromes and "Other" of McKenzie concept is so popular? – QTF and other supporting research evidences
2. What is treatment to homogenous and heterogeneous population.
3. Why is Centralization and Peripheralization so widely researched all over the world.
4. Evidences on the McKenzie system.

Overview Presented by:

Dr. Asha Menon PT, Dip. MDT, Faculty for The McKenzie Institute International.

McKenzie Institute India is registered for charitable purpose under the Govt of India

REPORT OF WORKSHOP – MCKENZIE AN OVERVIEW

Date - 20TH OCTOBER 2018

Venue – S1 Hall

Time: 9am to 5pm

Eminent speaker Dr. Asha Menon PT, Dip. MDT, Faculty for The McKenzie Institute International conducted a workshop on “MCKENZIE AN OVERVIEW”. This workshop was attended by over 100 delegates which included final students, interns, post graduates, staff and alumni of Krishna College of Physiotherapy, Krishna Institute of Medical Sciences “Deemed to be University”, Karad.

Following were the Contents of the overview:

1. What is the McKenzie Concept or Mechanical Diagnosis and Therapy.
2. Why is the McKenzie System Diagnostic, Prognostic, Therapeutic and Prophylactic
3. What role does Positions, Postures, Movements and Activities play in the assessment using McKenzie concept?
4. What is Centralization and Peripheralization
5. Details of the 3 syndromes, more than what is found in text books.
6. What is the fourth sub classification of ‘Other’ in the McKenzie concept.
7. Brief talk on the assessment process
8. Definition of Symptomatic responses and Mechanical responses.
9. Principles of Management, in the 3 syndromes.
10. Principles of Management in various directional preferences.

The workshop mainly targeted students and Physiotherapists who have not done the McKenzie courses. The Overview answered a lot of the questions and queries that the delegates had about the well known McKenzie System. The workshop was appreciated by all the delegates.

REPORT

A SWAYAM awareness workshop was conducted on behalf of Digital Learning and Monitoring Cell, by SWAYAM mentor Dr. Sayali S. Gijare, at Krishna College of Physiotherapy, Karad on 26th February 2019, 10 am to 5pm.

It was arranged for faculty members and post-graduate students of Krishna College of Physiotherapy, Karad. Total 7 faculty members and 11 post graduate students attended the workshop.

Their objectives of the workshop were,

- Awareness about SWAYAM courses,
- Information about MOOCs i.e. Massive Open Online Courses
- Understanding their use in academic activities.

Faculty members were encouraged to promote the use of SWAYAM in their teaching methodologies and production of new courses through SWAYAM platform. Session was concluded with the discussion regarding enrollment of new courses and MOOCs.

Event Report

Name of the Topic : “How to Write and Publish a Scientific Paper”

Date: 5/03/2019

Time: 10:00 am – 3 pm

Venue : Lecture Hall No-3, School of Dental Sciences, KIMSDU, Karad

Name of the Speaker : Dr. Salika Sheikh, Professor, Dept of Periodontology, Rangoonwala Dental College , Pune.

No. of Participant : 75

Introduction of Programme : The program focused on educating the BDS (IVth year and interns), MDS students and staff about "How to Write and Publish a Scientific Paper". It was conducted on 0511, March 2019 at the Lecture Hall no.3 in School Of Dental Sciences. A total of 75 students attended the program. The lecture was delivered by Dr. Salika Sheikh, Professor, Dept of Periodontology, Rangoonwala Dental College, Pune.

Includes Level of Event – College level

Organized by : Department of Periodontology, SDS, KIMSDU, Karad.

Schedule of the Programme : Introduction of speaker followed by main lecture, Pre and post test were taken before and after the program, felicitation of the guest speaker.

Objectives of the Programme : 1. Techniques of writing and publishing a paper

Brief Description of the Programme : . The program was conducted in one Sesion, for BDS (IV year and interns) and MDS students from morning 10:00 AM onwards. The lecture lasted for an hour and included lot of scientific data and evidence based information, which the audience appreciated the most. The whole program was interactive and Students appreciated the lecture. At the end of the lecture our HOD, Dr. Girish Surgaimath felicitated the speaker, Dr Salika Sheikh with a certificate of appreciation.

WORKSHOP ON MECHANICAL VENTILATION

DATE: 30/03/2019

VENUE: KIMS, KARAD.

ORGANISERS: Department of MEDICINE & Staff scientific society, KIMS.

The programme started in the morning at 8.30AM, with delegates getting themselves registered followed by Breakfast. At 9.30am the inauguration programme was started. The Dignitaries on the dias,

Dignitary	Designation
Dr. S.T.Mohite	Dean Krishna Hospital
Dr. A.Y.Kshirsagar	Medical Director Krishna Hospital
Dr. Makarand Mane	Organising Secretary Of The Workshop
Dr. Sanjay Patil	Joint Secretary, Staff Scientific Society. Professor Obgy Dept
Dr. Ajit Kulkarni	Workshop Coordinator

Goddess Saraswati was invoked by Lamp kindling & reciting a shloka. Dr. A.P.Patange welcomed Dr. S.T.Mohite, DEAN to the Workshop with a floral boquet. Dr. Archana gautam welcomed Dr. A.Y.Kshirsagar, Medical director with a floral boquet. Dr. Rahul patil welcomed Dr. Sanjay Patil, with a floral boquet. Dr. Abhijit patil welcomed Dr. Makarand mane with a floral boquet. Dr. Amit botre welcomed Dr. Ajit kulkarni with a boquet. Dr. Abhijit patil welcomed the MMC observers Dr. Ramakant Mohite & Dr. Naseema Kanase to the workshop.

A brief introduction was given regarding the state of art technology available under department of Medicine at KIMS. Equipped with 20 + Ventilators & 6 Modern ICU's - Department of medicine, Krishna hospital is proud in providing the best services to patients in and around karad.

PRE TEST papers were given to the delegates and later collected back.

Later inagural speech was given by Dr. SANJAY PATIL.

Vote of thanks was presented by Dr. MAKARAND MANE.

Dean
Krishna Institute of Medical Sciences,
KIMSDU, Karad

All the dignitaries were thanked for sparing their valuable time for the workshop.

SESSION	TIME	TOPIC	SPEAKER	CHAIR PERSON
1	9.30-10.00 AM	Basics on mechanical ventilation	Dr. Amol Kodollikar	Dr. Dilip Patil
2	10.00-10.30 AM	Trouble shooting during mechanical ventilation	Dr. Ajay keni	Dr. Vasant devkar
3	10.30-11.00 AM	Ventilator scalar	Dr. Ajit kulkarni	Dr. Vasant devkar
	11.00-11.15 AM	Tea break		
4	11.15-11.45 AM	Interpretation of ABG	Dr. Ajit kulkarni	Dr. A.P. Patange
5	11.45-12.30 PM	Ventilation strategy in Obstructive airway disease	Dr. Ajay keni	Dr. A.P. Patange
6	12.30-1.15 PM	NIV in ICU	Dr. Amol Kodollikar	Dr. Rahul patil

Discussion took place at the end of every session. Every session was brilliant, all the delegates especially the residents were enthusiastic in participating in discussion.

POST TEST papers were given to the delegates at the end of 6th session and later collected back.

Few questions asked by the delegates to the speakers,

- 1) How to wash out CO₂ in a patient with CO₂ narcosis?
- 2) Ventilation strategies in Reactive airway diseases?
- 3) Base deficit significance?

Dean

Krishna Institute of Medical Sciences,
KIMSDU, Karad

Beautiful experiences shared by the speakers

- 1) How one of the speaker identified Intestinal fistula in a post operative patient just by seeing ABG.
- 2) Newer ventilation strategies in ARDS based on Speakers experiences.
- 3) Why Alarms are significant and internal part of ventilators?

Chair persons at the end of every session threw some light on the topics as well from their aspect. All the speakers & Chair persons were felicitated at the end of each session.

Photographic session took place from 1.15pm to 1.30pm where all the speakers, organisers & delegates participated.

Lunch break commenced at 1.30pm and continued till 2.15pm. A variety of vegetarian dishes were served. All the delegates were happy to have delicious food that was being served to them. During the lunch residents discussed with the speakers regarding their doubts and routine problems faced with mechanical ventilation.

From 2.15pm,

There was a Discussion regarding all the Pre/Post test questions by all the 3 speakers. All the delegates, be it Residents or Consultants actively participated in the discussion. All the doubts of the delegates were in detail discussed by the Speakers. There was a detailed session on Ventilation strategies in ARDS by Dr. Ajit kulkarni.

Later Dr. Amol kodolika & Dr. Ajit kulkarni assisted by Dr. Archana gautam conducted hands on workshop lesson on ventilators starting from the basics relating with all the clinical scenarios.

The session ended at 5.00PM in the evening with all the delegates satisfied with amount of knowledge gained and the speakers satisfied with the response from delegates.

All the delegates at the end requested for similar kind of clinical workshops to be conducted frequently by the department of medicine and congratulated the organising team for conducting such an extraordinary workshop.

KRISHNA COLLEGE OF PHYSIOTHERAPY, KARAD

REPORT OF

1st Integrated CME and CPTE week 3rd to 9th April 2019

INAUGURATION

The theme for Day 1 (3rd April) was, emerging topic “low back pain” organized by musculoskeletal sciences physiotherapy department, Krishna College of Physiotherapy, in collaboration with faculty of medicine Krishna Institute of Medical Sciences “Deemed To Be University”, KARAD.

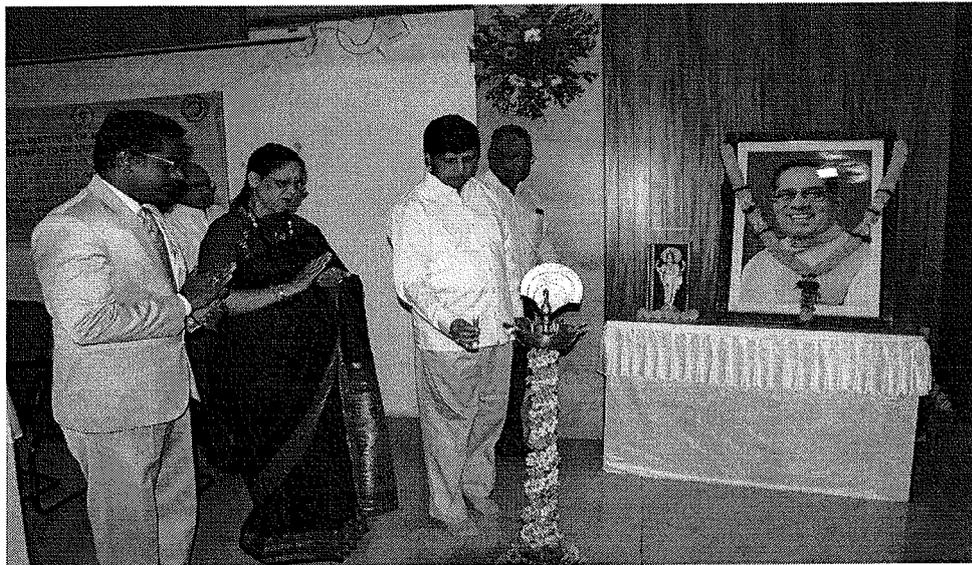

Photo 1: Lamp lighting by the dignitaries

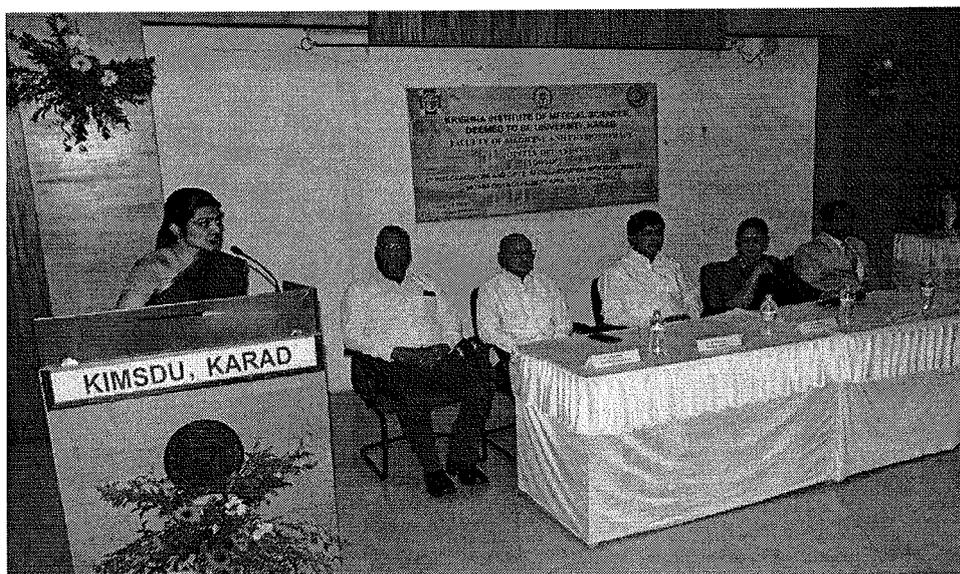

Photo 2: Welcome address by Dr. Khushboo

PLENARY SESSIONS

1. LOW BACK PAIN: THE PRICE FOR YOUR ERECT POSTURE: DR. R GUNAKI PROFESSOR, DEPARTMENT OF ORTHOPAEDICS, KRISHNA HOSPITAL, KARAD.

The first session was conducted by DR. R GUNAKI, on the topic LOW BACK PAIN. The session was in brief about definition, prevalence, etiology of low back pain. The session also consisted of effects of various postures on lumbar pain and modification to reduce the pain. The session was concluded with clinical decision making on medical and surgical management on subjects with low back pain.

2. EVIDENCE BASED PHYSIOTHERAPY MANAGEMENT FOR LOW BACK PAIN: DR. NIRAJ ATHAVALE, ASSISTANT PROFESSOR, SANCHETI INSTITUTE OF PHYSIOTHERAPY, PUNE.

The session delivered a light on physiotherapy management, where tailor made exercise programme was briefed about. Also, condition where physiotherapy works significantly with published reports were presented. Conditions where physiotherapy is indicated and contraindicated were also briefed about. The session ended with various protocols for localized low back pain.

3. ROLE OF PHYSIOTHERAPY AND VARIOUS PHYSIOTHERAPY MANAGEMENT STRATEGIES: Dr. SANDEEP SHINDE, ASSOCIATE. PROFESSOR, KRISHNA COLLEGE OF PHYSIOTHERAPY, KIMSDU KARAD

In detail lecture was given about various protocols for different types of low back pain. Special focus was given to pilates and phase wise protocols. Also, various physiotherapy techniques to treat patients with low back pain was demonstrated.

4. PSYCHOSOCIAL AND ILLNESS BEHAVIOURS IN CHRONIC PAIN: DR. AMRUTKUMAR JADHAV, ASSOCIATE PROFESSOR, KRISHNA COLLEGE OF PHYSIOTHERAPY, KIMSDU KARAD.

The lecture focused on psychological involvement and changes in behavior in subjects with low back pain. Physiotherapy management like jacodson's relaxation technique was demonstrated on each individual in group session, which gave a positive audience response.

5. ORTHOTIC PRINCIPLES & APPLICATIONS: DR. G. VARDAHARAJULU DEAN, PROFESSOR, KRISHNA COLLEGE OF PHYSIOTHERAPY, KIMSDU KARAD.

The lecture focused on supportive management for low back pain. The lecture briefed about principles and types of orthotic devices given for low back pain. Indications to use it as an aid and process of weaning it off was also briefed about.

6. OVERVIEW AND SUMMARY: OS, SPEAKERS & DELEGATES.

A brief overview was given by Dr. G. VARADHARAJULU and all the speakers on the lectures conducted throughout the day. Summary was discussed for queries along with the delegates and participants.

The theme for Day 2 (4th April) was, “STROKE” organized by neurophysiotherapy department, Krishna College of Physiotherapy, in collaboration with Faculty of medicine Krishna Institute of Medical Sciences “Deemed To Be University”, KARAD.

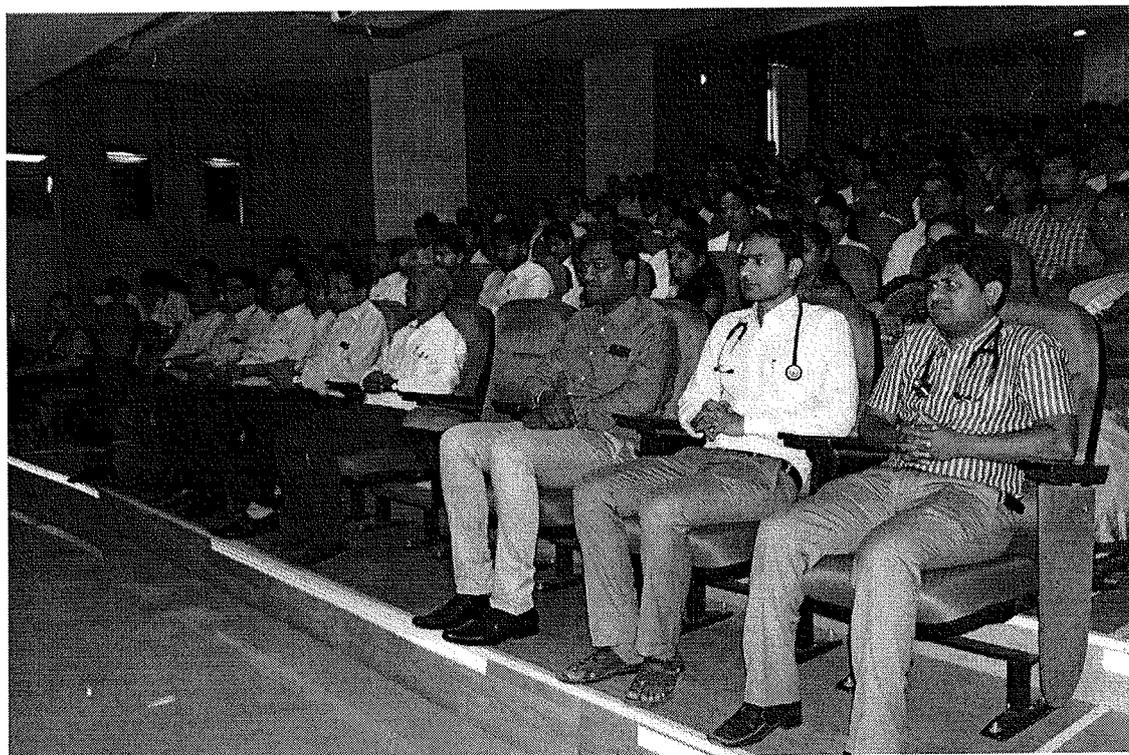

Photo 3: Participants of the program

PLENARY SESSIONS

1. STROKE-OVERVIEW: DR. V.C. PATIL PROFESSOR, HEAD OF DEPARTMENT OF MEDICINE, KRISHNA HOSPITAL, KARAD.

The first session was conducted by DR. V.C. PATIL, on the topic OVERVIEW OF STROKE. The session was in brief about definition, prevalence, etiology of stroke. The session also consisted of various types of stroke and in brief about medical management of different types of strokes. The session was concluded with clinical decision making on medical and surgical management on subjects with stroke.

2. ICU MANAGERIAL SKILLS IN STROKE: DR. ARCHANA KARNJALKAR, INTENSIVIST, KRISHNA HOSPITAL, KARAD.

The session delivered a light on ICU management of stroke. Also, the session gave an idea about severity of stroke and importance of ICU management in various types of

stroke. Conditions where physiotherapy is indicated and contraindicated were also briefed about. The session ended with various management technique in ICU set-up in particular to stroke.

3. RECOVERY AND OPD MANAGEMENT OF STROKE: DR. SURAJ KANASE, ASSOCIATE PROFESSOR, KRISHNA COLLEGE OF PHYSIOTHERAPY, KIMSDU KARAD In detail lecture was given about various protocols for both acute and subacute types of strokes. The session was in detail about OPD management of stroke, where detailed conservative treatment protocols usually utilized by physiotherapists was elaborated.

4. ADVANCE MANAGEMENT OF STROKE: DR. G. VARADHARAJULU, DEAN AND PROFESSOR, KRISHNA COLLEGE OF PHYSIOTHERAPY, KIMSDU KARAD.

The lecture focused on advance rehabilitation of subjects with stroke. Physiotherapy management like Neurodevelopmental approach was briefed about along with evidence, which made audience clear about the usage of Neurodevelopmental approach and its effects on stroke.

5. OVERVIEW AND SUMMARY: OS, SPEAKERS & DELEGATES.

A brief overview was given by Dr. G. VARADHARAJULU and all the speakers on the lectures conducted throughout the day. Summary was discussed for queries along with the delegates and participants.

The theme for Day 3 (5th April) was, “MYOCARDIAL INFARCTION” organized by cardiopulmonary physiotherapy department, Krishna College of Physiotherapy, in collaboration with faculty of medicine Krishna Institute of Medical Sciences “Deemed To Be University”, KARAD.

PLENARY SESSIONS

1. MYOCARDIAL INFARCTION- CLINICAL ASPECTS: DR. POOVISHNUDEVI, ASSOCIATE PROFESSOR, KRISHNA COLLEGE OF PHYSIOTHERAPY, KIMSDU, KARAD. The first session was conducted by DR. POOVISHNUDEVI, on the topic MYOCARDIAL INFARCTION AND ITS CLINICAL ASPECTS. The session was in brief about definition, pathology, causes and its prevalence. The session also consisted of various types of myocardial infarction and its stages and in brief about how Myocardial infarction occurs.
2. INVESTIGATIONS IN MYOCARDIAL INFARCTION: DR. RAMESH KAWADE, CARDIOLOGIST, KRISHNA HOSPITAL, KARAD.

The session delivered a light on various investigative procedure carried out to confirm

myocardial infarction. Also, the session gave an idea about investigative techniques like electrocardiography, echocardiography, x-ray and general physical examination on the perspective of heart and lung system. In detail electrocardiography reading was delivered which attained very good feedback from students.

3. MYOCARDIAL INFARCTION MEDICAL MANAGEMENT: DR. ABHIJEET SHELKE, CARDIOLOGIST, KRISHNA HOSPITAL, KARAD.

In detail lecture was given about symptomatic medical management techniques for various stages of myocardial infarction. The session was in detail about OPD management of myocardial management, where detailed conservative management techniques usually utilized by cardiologists was elaborated.

4. ROLE OF PHYSIOTHERAPY MANAGEMENT: DR. VISHWANATH PAWADSHETTY, ASSISTANT PROFESSOR, MIMER, COLLEGE OF PHYSIOTHERAPY, LATUR.

The lecture focused on conservative management of subjects with myocardial infarction of all the stages within ICU setup. Various techniques which can be performed in ICU setup on subjects with the condition were elaborated and discussed along with evidence.

DR. JAVID. H. SAGR, PROFESSOR, KRISHNA COLLEGE OF PHYSIOTHERAPY, KIMSDU, KARAD.

The session briefed about the physiotherapy skills in OPD set-up which can be utilized to treat subjects with post-operative myocardial infarction. Techniques like segmental and diaphragmatic breathing were more focused and their importance in post-operative cases were discussed.

DR. G. VARADHARAJULU, DEAN AND PROFESSOR, KRISHNA COLLEGE OF PHYSIOTHERAPY, KIMSDU KARAD.

The lecture focused on cardiac rehabilitation of subjects with myocardial infarction. All the phases of cardiac rehabilitation were discussed in detail with emphasis on team work which is proved effective in treating cardiac patients.

5. OVERVIEW AND SUMMARY: OS, SPEAKERS & DELEGATES.

A brief overview was given by Dr. G. VARADHARAJULU and all the speakers on the lectures conducted throughout the day. Summary was discussed for queries along with the delegates and participants.

The theme for Day 4 (8th April) was, "MENOPAUSE" organized by COMMUNITY BASED REHABILITATION DEPARTMENT OF physiotherapy, Krishna College of Physiotherapy, in collaboration with faculty of OBSTETRICS AND GYNECOLOGY Krishna Institute of Medical Sciences Deemed-To-Be University, KARAD.

PLENARY SESSIONS

1. MENOPAUSE-OVERVIEW: DR. ARCHANA ROKADE, ASSISTANT PROFESSOR, DEPARTMENT OF OBSTETRICS AND GYNECOLOGY, KRISHNA HOSPITAL, KARAD

The first session was conducted by DR. ARCHANA ROKADE, on the topic MENOPAUSE AND ITS OVERVIEW. The session was in brief about definition, causes and its effects on women body. The session detailed about various changes occurring in women body after the attainment of menopause and briefed about problems faced by women during and after menopause.

2. MENOPAUSE-MEDICAL MANAGEMENT: DR. JYOTI ROKADE, GYNECOLOGIST, MIRAJ MEDICAL COLLEGE, MIRAJ.

The session delivered a light on various symptomatic medical management of menopause. Mainly the session focused on symptomatic treatment of different phases of menopause. Also, the session gave an idea about pharmacological coping strategies in treating symptoms of menopause.

3. MENOPAUSE-COPING STRATEGIES: DR. MANGOT, ASSISTANT PROFESSOR, DEPARTMENT OF PSYCHIATRY, KRISHNA HOSPITAL, KARAD.

In detail lecture was given about symptom of menopause. It was delivered that, according to changes occurring within women body during and post-menopause, strategies to cope up with them will be beneficial for every women. Psychological aspect of coping up with the changes was focused on in this lecture.

4. MENOPAUSE- PHYSIOTHERAPY RELATED PROBLEMS: DR. PRANJALI GOSAWI, ASSOCIATE PROFESSOR, KRISHNA COLLEGE OF PHYSIOTHERAPY, KIMSDU, KARAD.

The lecture focused on physiotherapy related problems faced by women during and post-menopause. The session also delivered light on pathomechanics of the problems occurring also, briefed about various treatment techniques for those particular problems.

5. REHABILITATION STRATEGIES IN MENOPAUE: DR. S. ANAND. ASSOCIATE PROFESSOR, KRISHNA COLLEGE OF PHYSIOTHERAPY, KIMSDU, KARAD.

The session briefed about the physiotherapy rehabilitation strategies in OPD set-up which can be utilized to treat subjects with problems related to physiotherapy during and post-menopause. Various preventive measures were also elaborated for condition like obesity, post-menopausal osteoporosis, etc.

6. EXERCISE MEDICINE: MENOPAUSAL OBESITY: DR. AMRUTKUVAR RAYJADE, ASSOCIATE PROFESSOR, KRISHNA COLLEGE OF PHYSIOTHERAPY, KIMSDU KARAD.

The lecture focused on menopausal obesity, its causes and types. Exercise therapy relevant to menopausal obesity were discussed with proved evidences which gained more attention from the audience.

7. OVERVIEW AND SUMMARY: OS, SPEAKERS & DELEGATES.

A brief overview was given by Dr. G. VARADHARAJULU and all the speakers on the lectures conducted throughout the day. Summary was discussed for queries along with the delegates and participants.

The theme for Day 5 (9th April) was, "CERBRAL PALSY" organized by PAEDIATRIC DEPARTMENT OF physiotherapy, Krishna College of Physiotherapy, in collaboration with faculty of DEPARTMENT OF PAEDIATRIC, Krishna Institute of Medical Sciences Deemed-To-Be University, KARAD.

PLENARY SESSIONS

1. ETIOLOGY AND PATHOGENESIS OF CEREBRAL PALSY: DR. C.D. AUNDHKAR, PROFESSOR, DEPARTMENT OF PAEDIATRIC, KRISHNA HOSPITAL, KARAD
The first session was conducted by DR. C.D. AUNDHKAR, on the topic ETIOLOGY AND PATHOGENESIS OF CEREBRAL PALSY. The session was in brief about definition, etiology, pathogenesis, various types of cerebral palsy. In detailed classification of cerebral palsy was discussed.
2. ASSESSMENT AND MEDICAL MANAGEMENT OF CEREBRAL PALSY: DR. VILAS JADHAV, PAEDIATRIC NEUROLOGIST, KOLHAPUR.

The session delivered a light on various assessment and medical management measures in children with cerebral palsy. Mainly the session focused on symptomatic treatment of

different types of cerebral palsy. Also, the session gave an idea about pharmacological coping strategies in treating symptoms of cerebral palsy.

3. ASSESSMENT AND PHYSIOTHERAPY MANGEMENT IN CEREBRALPALSY:
DR. PALLAVI DANGAT, PRINCIPAL MIMER, COLLEGE OF PHYSIOTHERAPY,
LATUR.

In detail lecture was given about assessment and management of cerebral palsy conservatively. Basic OPD management strategies to treat cerebral palsy condition were also discussed. Even videos of certain cases were demonstrated where few techniques were performed on children with cerral palsy gained more attention towards the lecture.

4. ASSESSMENT AND PHYSIOTHERAPY MANGEMENT IN CEREBRALPALSY:
DR. MANDAR MALAWADE, ASSOCIATE PROFESSOR, KRISHNA COLLEGE OF
PHYSIOTHERAPY, KIMSDU, KARAD.

The lecture focused on advance physiotherapy management strategies for children with cerebral palsy. Brief discussion over aqua-therapy gained more attention towards recent advance in treatment strategies of cerebral palsy.

5. OVERVIEW AND SUMMARY: OS, SPEAKERS & DELEGATES.

A brief overview was given by Dr. G. VARADHARAJULU and all the speakers on the lectures conducted throughout the day. Summary was discussed for queries along with the delegates and participants.

CME on “Infection Control”

The Department of Microbiology carried out an awareness programme on Anti Microbial Resistance(AMR) on 18th April 2019. A walkathon was arranged to create awareness on AMR .For this active participation was taken by the students of Medical, Dental, Physiotherapy and Nursing to the tune of 150 students. The walkathon started its march in front of the University building in the gracious presence of Hon. Vice Chancellor. Dr. Mrs. Neelima Malik, Registrar Sir, Dr. M. V. Ghorpade, Dean of Medical faculty, Dr. S. T. Mohite, Dean of Physiotherapy, Dr. Varadrajul. Dr. R. D. Kulkarni, Dr. Rajendra Srupam and faculty of Microbiology department. The walkathon was flagged off by Hon. Vice Chancellor. Dr. Mrs. Neelima Malik

CME on “Infection Control” was organized by the Department of Microbiology and Staff scientific society. The eminent speakers for this CME was the infection control team members from Bharati Vidyapeeth, Deemed University, Pune – Dr. Abhijeet Mane and Dr. Rakshita. The program started with the inauguration ceremony . Dr. R. D. Kulkarni, Head of the Department,SDM, Medical college, Dharwad, and Dr. Rajendra Srupam, Head of the Department, Government Medical college, Chandrapur added grandeur to the inauguration ceremony as guest of honor along with Dr. A. Y. Kshirsagar, Medical Director, KH & MRC & the Dean of Medical faculty, Dr. S. T. Mohite. The inauguration was followed by the talk on the theme on Infection control by the speakers.

The various topics covered by the speaker were –

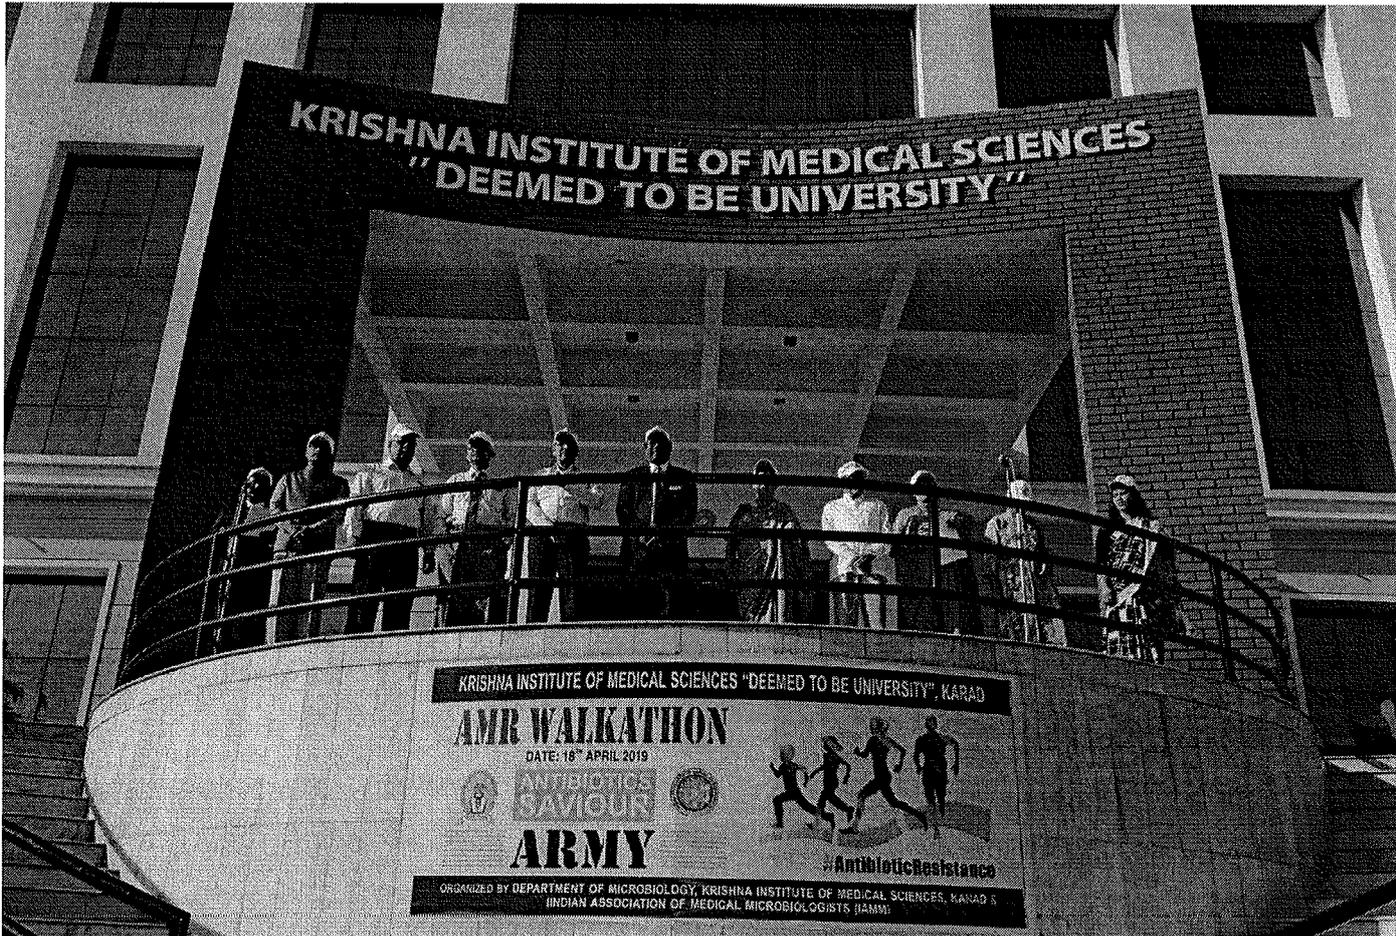

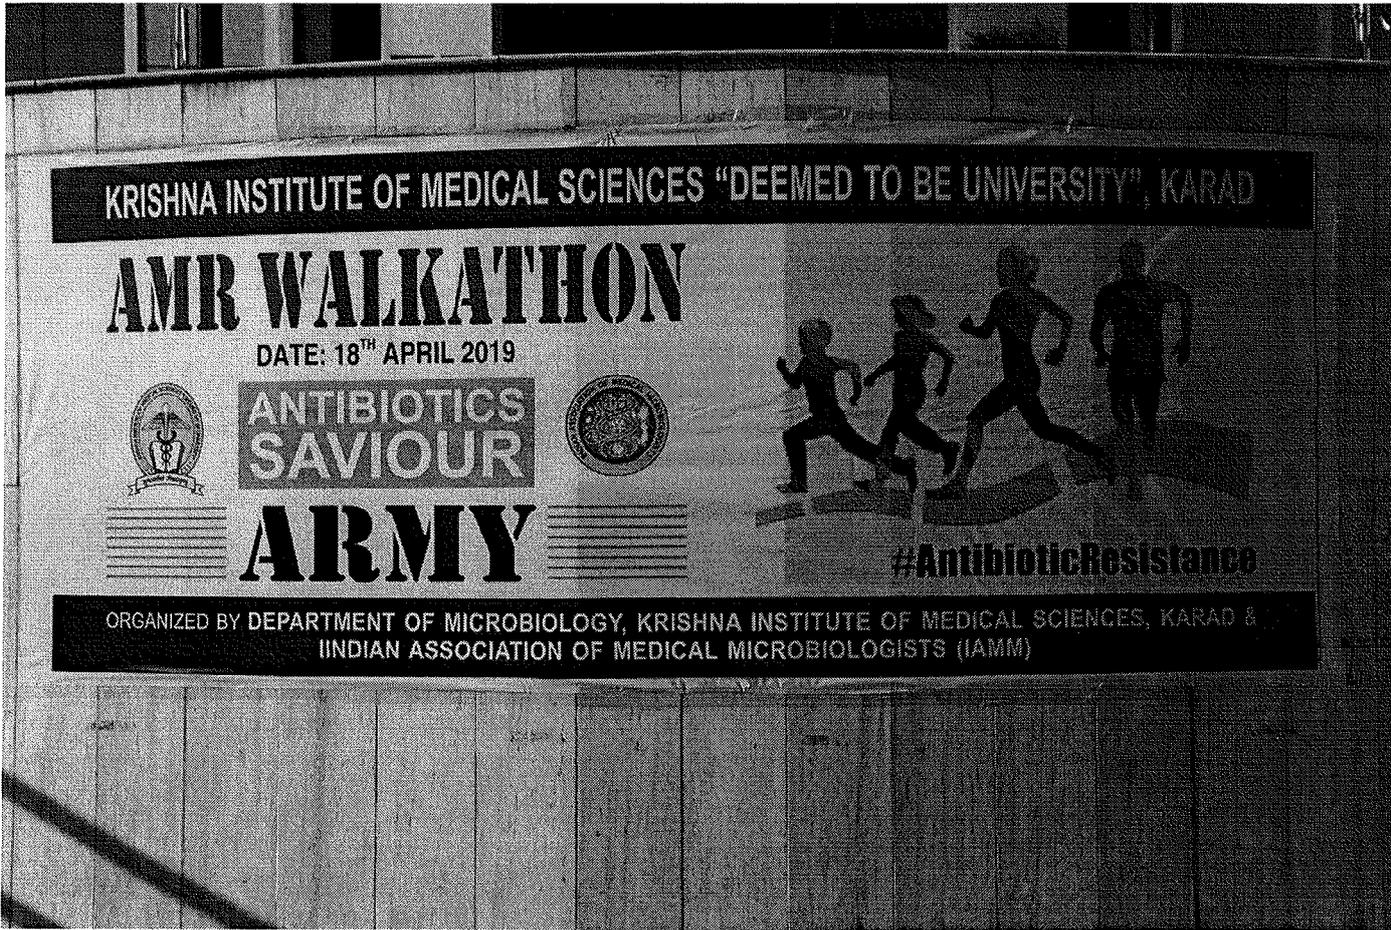

- Hand hygiene
- Biomedical waste disposal
- Infection control practice
- Safe – Injection & infusions
- Infection surveillance

Dr. R. D. Kulkarni adressed the gathering by expressing his view on Anti Microbial Resistance.

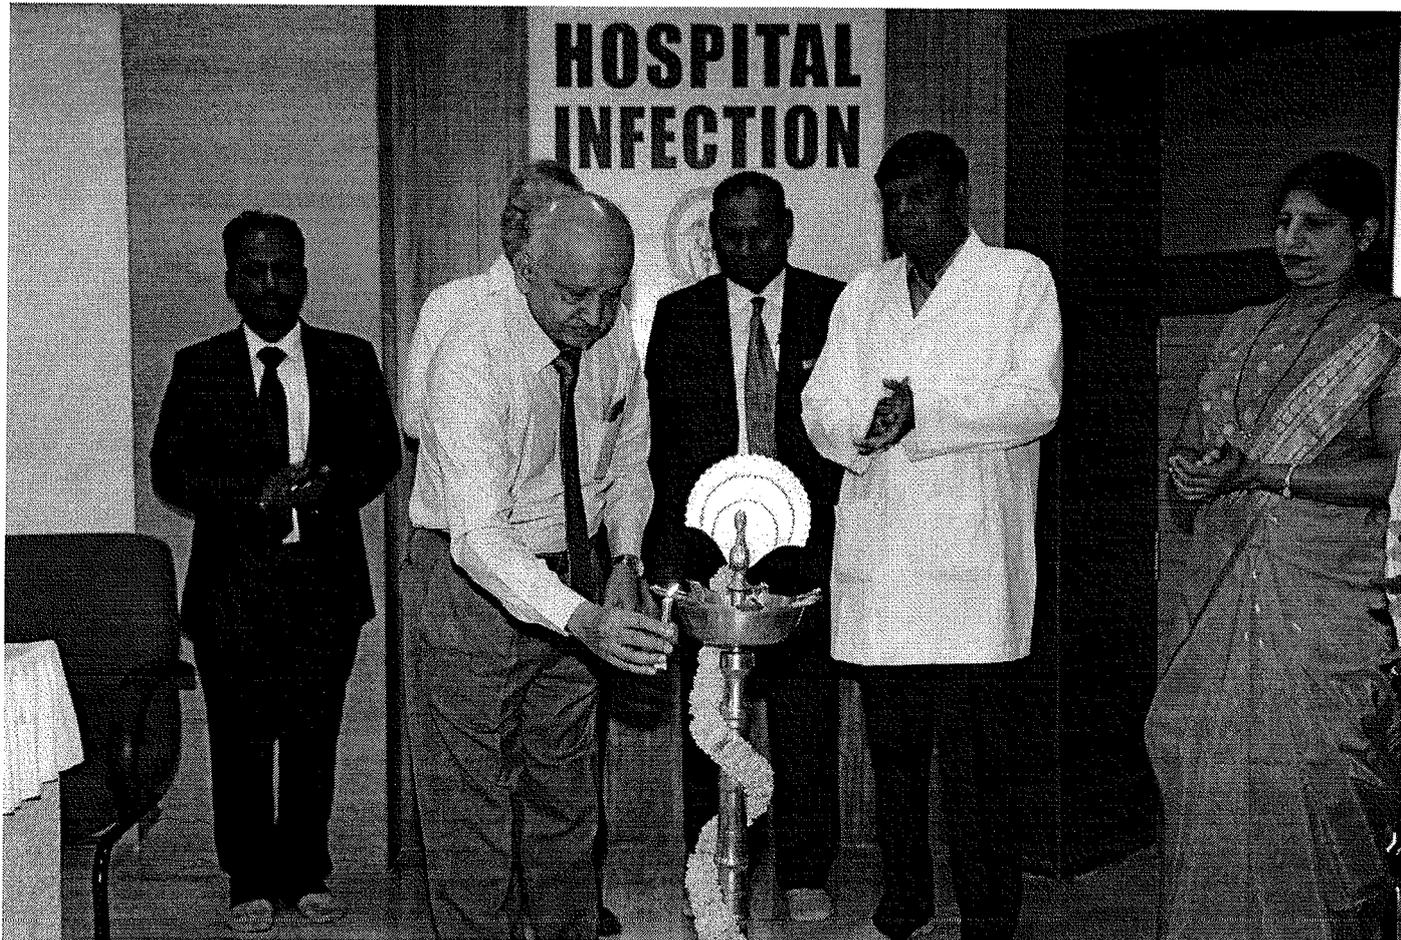

Dr. Rajendra Srupam enlightened the audience by giving an overview on Hospital Infection.

Research Methodology 8th to 12th October 2018

Directorate of Research, Krishna Institute of Medical Sciences, "Deemed To Be University", Karad scheduled Workshop in Research Methodology for Postgraduate Students from Faculty of Medicine, Nursing, Dental, Physiotherapy, and for Ph.D. Students.

Workshop was conducted as per the scheduled programme (Attached time table for the workshop) from 8th to 12th October 2018. The Research Methodology Workshop was conducted for 5 full days, every day irrespective of lunch break, lecture/discussion sessions were conducted for 6 hours. The total hours of lectures delivered/discussions in 5 days were 30 hours. Total 173 delegates participated in workshop. Out of that 72 were from Medical, 20 from Dental, 15 from Physiotherapy, 24 from Nursing, and 42 were Ph.D. students.

Workshop began with inaugural programme on 8th October 2018. Dr. A. K. Pratinidhi Former Director of Research was the Chief guest. In the welcome address Dr. Supriya Patil, Dean Academics, KIMS explained about importance and plan of workshop as well as rules and regulations. Dr. A. R. Risbud, Director Research, KIMS DU emphasised importance of methodology while conducting the research project. Dr. Asha K. Pratinidhi stressed on original work and need of quality research. Dr. S. V. Kakade Associate Professor proposed vote of thanks

Subsequently topics covered were need of research, selection of research topics, framing research questions, objectives, presentation of data, types of data, study designs, writing research proposal, sample size, sampling techniques, statistical tests, writing of thesis best practises, software's in statistics and ethics in medical research. In ICT session internet of medical things for healthcare application and role of mechanical engineering in medical profession topics were covered.

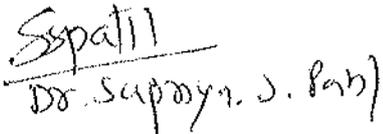

In addition to in-house faculties experts from different teaching institutes and National AIDS Research Institute were invited as resource persons. All the sessions were informative and interactive. There was active participation from delegates. ALG was 60.7%.

Group activity was given to 5 groups which included 2 from medical and 1 from Nursing, Dental and Physiotherapy faculty. Presentation work was assessed by Dr. A. K. Pratinidhi and Dr. P. M. Durgawale, HOD, Community Medicine. Winner and runner up groups were felicitated during valedictory function. Four credit points were granted by Maharashtra Medical Council. Soft copy of workshop and certificates were distributed to delegates as well as resource persons.

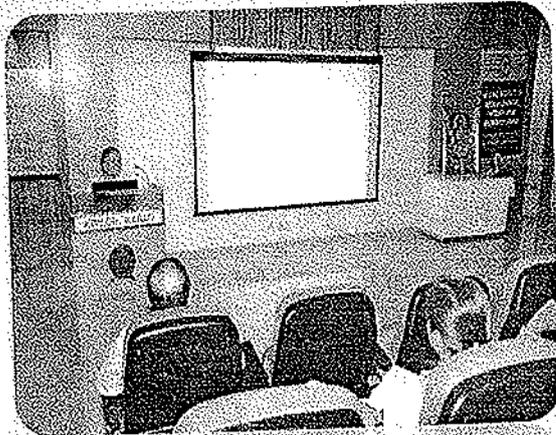

I am very much thankful to Dr. Arun Risbud sir for his encouragement, guidance and support. I extend my sincere thanks to all resource persons as well as all staff members from research office, KIMS DU, because of their co-operation and help smooth conduction of workshop was possible. I thank Miss. Archana Madam Assist. Academic Registrar for her help in MMC Credit points.

Workshop

Hands – on Workshop on WHONET & Baclink

6th & 7th February 2019

Hands – on Workshop on WHONET and Baclink was conducted as an activity by Staff Scientific Society & Department of Microbiology at MET Hall KIMS, Karad on the 6th & 7th February 2019.

WHONET is a free windows – based desktop application developed by the WHO Collaborating Centre for surveillance of Antimicrobial Resistance for the laboratory – based surveillance of infectious diseases and antimicrobial resistance.

The principal goals of the software are:

- To enhance capabilities for analyzing laboratory data; and
- To promote national and international collaboration through the exchange of data.

Baclink is a software for the conversion and standardization of microbiology data from existing systems into WHONET. Data can be converted on a weekly, monthly, or ad hoc basis, or in a number of institutions, it has also been possible to automate and schedule the entire process. Both WHONET and Baclink are available free – of – charge from the World Health Organization website.

By converting data to WHONET, laboratories have the benefits of :
1. Flexible data analysis capabilities; and 2. The ability to share data with other laboratories, for example in a national surveillance network.

A key priority for tackling antimicrobial resistance is establishing effective surveillance systems for antimicrobial resistance. There are various hospital laboratories in the country that are testing for antimicrobial resistance. However, the data analysis and sharing is a problem due to multiple data systems.

WHONET is a great tool which can provide same data sharing platform across all laboratories.

To achieve this capacity building, a 2 days Hands – on Workshop was organized to strengthen the national capacity for using WHONET for AMR data collation and analysis.

Dean

Krishna Institute of Medical Sciences,
KIMS DU, Karad

REGISTRAR

Krishna Institute of Medical Sciences
"Deemed To Be University", Karad

The goals of the Workshop were:

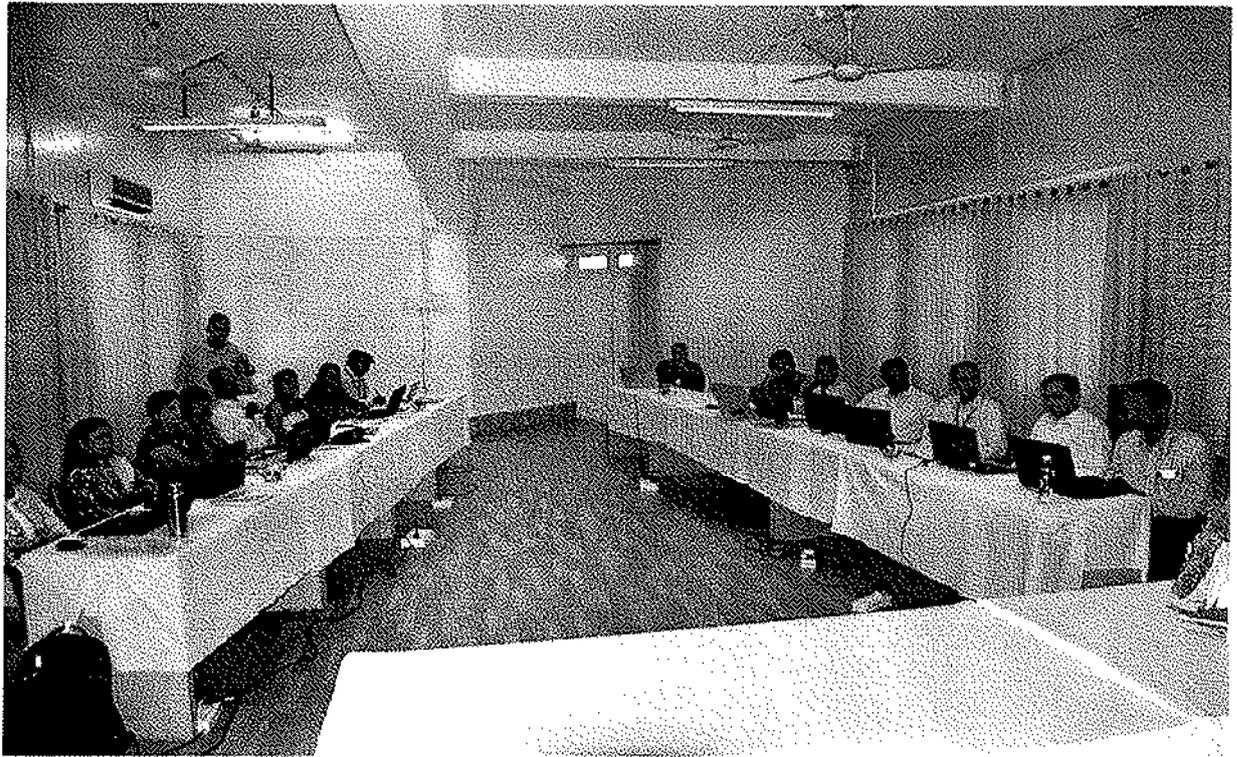

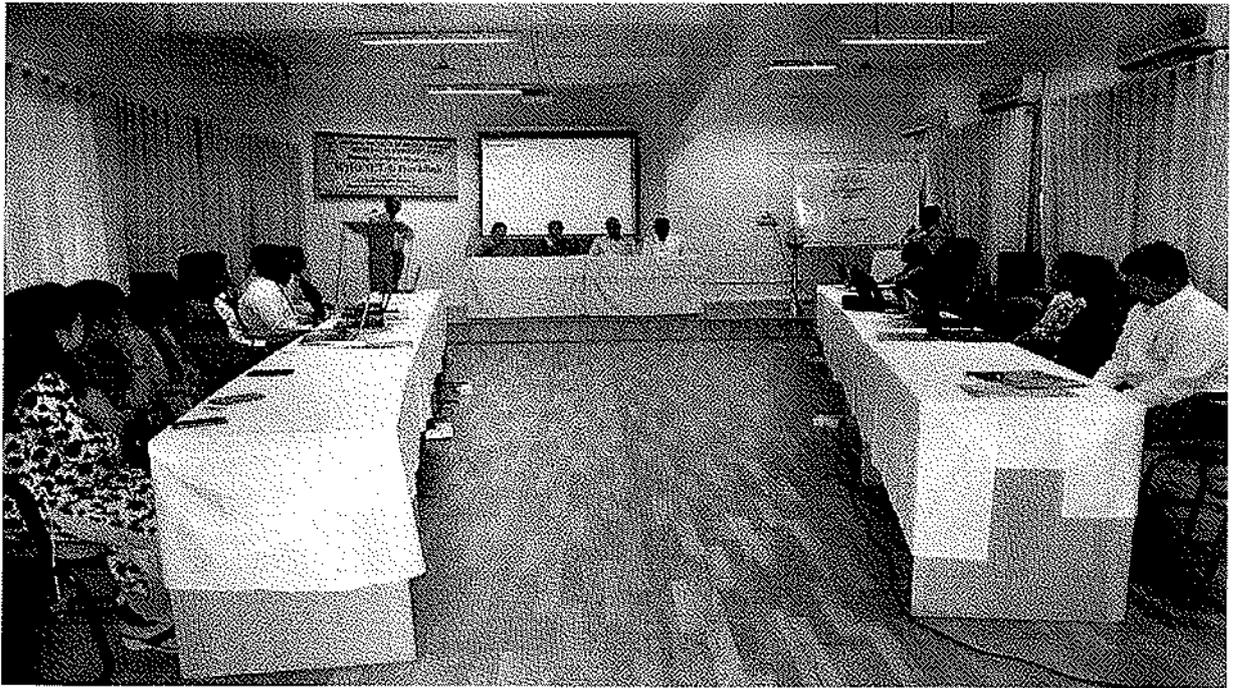

1. Impart knowledge and skill for using WHONET and Baclink
2. Share WHONET user experiences and lessons learnt.
3. Provide hands – on detailed training on WHONET data entry, data importation, configuration, and management for AMR surveillance.

The resource person for this workshop were Dr. Sonal Saxena Director Professor. Department of Microbiology, LHMC, New Delhi and Dr. Poonam Loomba Director Professor. Department of Microbiology, G. B. Pant Hospital, New Delhi

This 2 day workshop program was inaugurated at the hands of Dr. S. T. Mohite Principal, KIMS and Dr. A. Y. Kshirsagar, Medical Director KH&MRC, Karad.

The total participants enrolled for this workshop was about 18. Each participant was involved individually by operating on their own laptop. The workshop was fruitful with a rewarding outcome.

It ended with a valedictory function for which the past President IAMM. Dr. Abhay Chowdhary, in his presence enlightened on the importance of AMR and handed over the Certificate of Participation in the workshop to all the participants.

Report of CISP Workshop

Objectives of CISP (Curriculum Implementation Support Program) Workshop:

- 1) To introduce participants to competency based Medical education (CBME)
- 2) To link national health needs to competency and objectives.
- 3) To make the participants familiar with concepts of foundation course, electives and early clinical exposure.
- 4) To explain the details of Assessment in CBME.

Curriculum Implementation Support Program was organized by KIMS from 18th to 20th June 2019. For this program Dr. Karuna Datta, Professor and Head, Physiology was appointed as observer by MCI. Total 30 participants attended it. The sessions were interactive and Hands on experience was provided to participants. Main aim of this workshop was to introduce the faculty to new CBME-competency based medical education and modes of implementation.

Mean pre-test score- 08/35

Mean post-test score-29.6/35

Learning Gain=61.71%

The participants expressed their satisfaction about the workshop.

Topic: NABH Awareness Training.

Trainer / Speaker: Tushar Kadam

The PDP was conducted on the above mentioned date. Details of the program are as under:

Sr. No	Details	Details
1	Total number of participants	10
2	Total duration of the program	8 hours
3	Feedback details	
	A	06
	B	04
	C	00

The training was conducted in below sessions

Session 1 – NABH standards

Session 2 – Implementation of NABH Standards

Session 3 – Safety and Emp responsibilities

The entire session was an interactive one with ample use of audio – visual aids for maximum efficiency and optimal reach. A separate question time was allotted to clarify doubts of the participants.

Pre and post training exams were conducted. All concerned staff understands why Program conducted. All the employees successfully learned how to Create NABH Awareness Training. Program Started on NABH standards information. All staff are understanding how important the NABH standards level is in the institute. Information was provided about the risks involved in the day-to-day work as well as the security issues involved in those risks and your duties and responsibilities.

REPORT OF 'Work Shop Stress Management'

The work shop was organized on 21st July 2018 at KIMSDU with the aim of teach, train and transfer. The workshop was organized by Women Empowerment cell, primarily for female clinicians, students who included doctors, dentists & nurses of Krishna hospital.

Chief Guest of the CME, Hon Dr Neelima Malik, vice chancellor, inaugurated the conference with invocation of Almighty, lamp lighting and Inaugural address.

A total of 43 teaching staff & 50 non-teaching participants enrolled, successfully completed the programme and received the certificate for the workshop.

Program started with 8:30am to 9:15 am Registration, Breakfast. There was 9:15 am to 10:00 am Inauguration & welcome speech.

The faculties Dr Animish Chavan, Mrs Mastoli and team members spoke as per the program on following topics and interactive sessions with real life scenarios were undertaken.

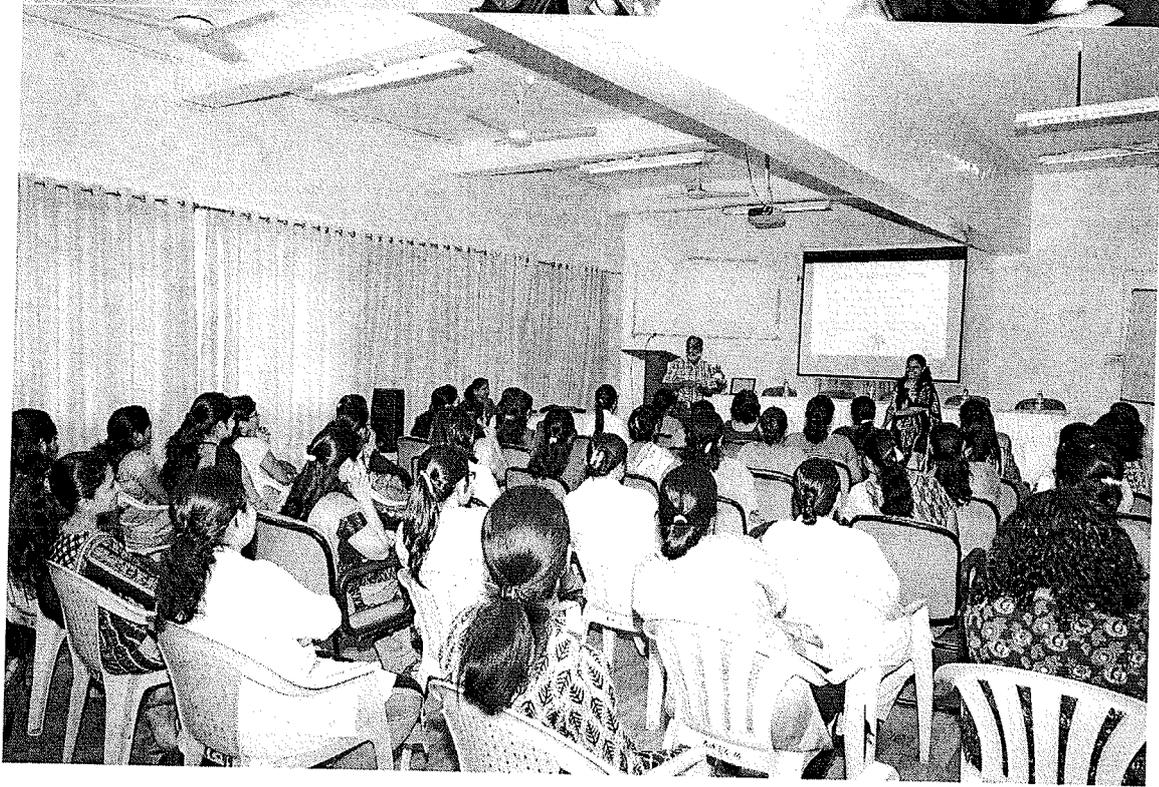

- 1) Activities to understand concepts of stress and how it becomes distress
- 2) Activities to understand coping mechanisms
- 3) A Group Exercise to identify dysfunctional thought Processes.
- 4) Techniques to deal with dysfunctional thoughts
- 5) Skills to improve coping mechanism
- 6) Discussion regarding day to day stress.

The breaks were as 11:15 am to 11:30 am Tea Break, 1:00 pm to 2:00 pm Lunch Break, 4:00 pm to 4:15 pm Tea Break.

Thanks to staff members, Dean's office, IT dept, Electrical Dept, Civil office and all others for their valuable support. We also thank KIMS University Vice Chancellor, Registrar and Finance's Office for their timely help.

Event Report

Name of the Topic : Basics of Hospital information management system .

Date: 20/08/2018

Time: 09:00 am – 05.00 PM

Venue : Media room Pharmacy collage, KIMSDU, Karad

Name of the Speaker: Vimalakar Babar

No. of Participant: 31

Introduction of Programme : Hospital information system deals with Patients data which is very important for EMR, Lab reporting , Radiology imaging , collection of data which deals with entire history of patients record and makes quality information in Medical records.

Includes Level of Event – Hospital Level

Organized by : ICT Dept , KIMSDU, Karad.

Schedule of the Programme : Introduction of speaker followed by main lecture, Pre and post test were taken before and after the program.

Objectives of the Programme : 1. Use of HIMS software in Hospital

Brief Description of the Programme : A total of 31 delegate we present that included Nursing staff of Krishna Hospital , KIMS" Deemed to be University", Karad. Pre and post tests were distributed before and after the lecture. A positive outcome was achieved with a pre test average score of 50% and posttest average score of 85 . An Advanced Learning Gain (ALG) of 35% was achieved. An excellent feedback was achieved from all the beneficiary listeners that attended the program.

Workshop on "Office Etiquette and Official Writing Skill"

17th and 18th January 2019

The brief report for the workshop conducted on 17th and 18th January 2019 for non-teaching staff on "Office Etiquette and Official Writing Skill" is integrated with emphasis on three different factors: proactive interaction, active participation of candidates in different activities and answers in the pre and post assessment test. The objective of the workshop was to make the participants understand, practice, and realize the importance of etiquette and most importantly implement these etiquette in their day – today professional and personal life. The second Objective of the workshop was making a steady transformation in their writing skills and their thought process so as to generate the desired change for effective writings in case of drafts, emails, letters, reports, etc. and create a well-communicated professionals in the organization. The average score of participants in the pre-assessment test was 29.16. The average score in the post-assessment was 74.96

There is a visible change in scoring pattern of participants in the post assessment test and it is an indicator of understanding of the different topics presented during the workshop.

	Post Training	100%

The training was conducted in below sessions

Session 1 – Introduction and machines at KHMRC

Session 2 – Preventive and corrective maintenance

Session 3 Maintaining records, calibration, AMC and CMC

Session 4 Safety Precautions

Post training test and closure

Training was conducted on machines like ventilators, Multipara monitors, warmer and syringe pumps. Explained different modes of ventilator and monitor. For preventive and corrective maintenance we do weekly round in ICU. In that we check accessories and working of the machinery.

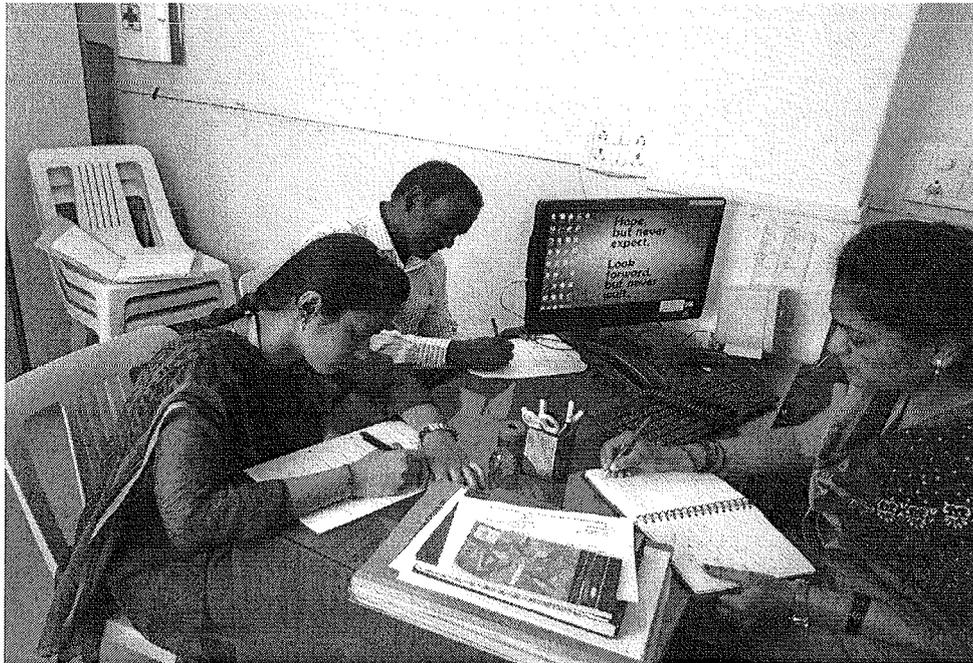

We maintain records of Service, PMS, and calibration reports. Each types of reports having separate file.

For safety we check earthing of the point where machine is going to attach. Also checks power cord of machine.

Professional Development Program Report

Department: Power House

Venue: Power House

Date: 21/03/2019

Time: 09:00 am

Topic: LT Panel Operation & Maintenance; Solar panel operations and Maintenance; Preventive and Corrective maintenance

Trainer / Speaker: S. A. Mane

The PDP was conducted on the above mentioned date. Details of the program are as under:

Sr. No	Details	Details
1	Total number of participants	6
2	Total duration of the program	8 hours
3	Feedback details	
	A	6
	B	0
	C	0
4	Tests	
	Pre – Training	58
	Post Training	93

Program was conducted in below sessions

Session 1 – Pre training test

Session 2 – LT Panel Operation & Maintenance,

Session 3 -Solar panel operations and Maintenance

Session 4- Preventive and Corrective maintenance

Summery

- 1) The aim of training is to improve the Panel performance, solar energy generation and its maintenance.
- 2) In Second session of training we teach to staff how to work LT panel safely and to operate safely how to set its parameters etc.
- 3) In 3rd session of training we train to staff how solar panel works and generate green power also train how to maintain for increase its efficiency
- 4) In 4th session of training we teach to staff what is Preventive and Corrective maintenance.

Photos:

ELECTRICAL ENGINEER
KIMSDU, KARAD

Questionnaire – Pre – Training

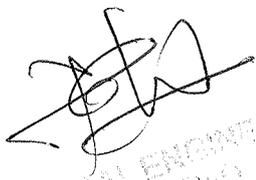

- a) What is LT panel?
- b) Which type of maintenance used for panel?

ELECTRICAL ENGINEER
KIMSOU, KARAD

Questionnaire – Post – Training

- a) What is changeover switch?
- b) What is the ACB capacity of PCC 1?
- c) What is ideal earthing resistance?

ELECTRICAL ENGINEER
KMSGDU, KMSGDU

Sample answer sheet – Pre – Training

Electrical Department
PIMSOULPANG

- a) What is LT panel?
b) Which type of maintenance used for panel?

Ans :- 1] The panel it is used for distribution of 3 ϕ phase & 1 ϕ phase supply

2] Preventive Maintenance.

ELECTRICAL ENGINEER

Sample answer sheet –Post – Training

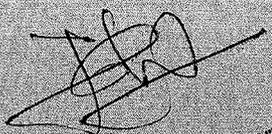

Electrical Department
KIMSDU, Karad
March 2019

- a) What is changeover switch?
- b) What is the ACB capacity of PCC 1?
- c) What is ideal earthing resistance ?

Ans :- a] switch which is used for provide stand by supply

b] 1250 Amp

c] 0 - 2 Resis

Workshop on “Office Etiquettes and Official Writing Skill”

28th-29th May 2018

The concise summary for the workshop conducted on 28th May 2018 and 29th May 2018 for non-teaching staff on ‘Office Etiquettes and Official Writing Skill’ is consolidated with emphasis on following three parameters viz. proactive interaction during the session, active participation of candidates in different activities and answers in the Pre and post assessment test. The objective of the workshop was to make the participants understand, practice, and realize the importance of etiquette and most importantly implement these etiquette in their day –today professional and personal life. The second objective of the workshop was making a steady transformation in their writing skills and their thought process so as to generate the desired change for effective writings in case of drafts, emails, letters, reports, etc. and create a well-communicated professionals in the organization. The average score of participants in the pre-assessment test was 31.42. The average score in the post-assessment was 71.96.

There is a visible change in the scoring pattern of participants in the post-assessment test and it is an indicator of understanding of the different topics presented during the workshop.

Professional Development Training- Report

Department: Biomedical Waste Management

Venue: Biomedical Waste Management Office

Date: 19/02/2019

Time: 09:00 to 05:00

Topic: 'Biomedical waste management & Hazmat spillage cleaning'

Trainer / Speaker: Mr. Ganesh Sunil Patole

The PDP was conducted on the above mentioned date. Details of the program are as under:

Sr. No	Details	Details
1	Total number of participants	16
2	Total duration of the program	8 hours
3	Feedback details	
	A	Good
	B	
	C	

The training was conducted in the below 5 sessions

Session 1 – What is BMWM

Session 2 – BMWM rules

Session 3 BMWM collection, segregation and disposal

Session 4 Spillage cleaning

G. Patole

In first session, we have seen the definition, categories, sources & examples of biomedical waste. In second session, we have seen the 'Biomedical waste management rule, 2016' which is mandatory for the management of biomedical waste by the MPCB. In third session, we have seen the institute's policy for the collection, segregation & disposal of biomedical waste. In this session, we have seen the collection timing for different shifts. Also, we have seen the procedure of collection & segregation of biomedical waste. In fourth session, we have taken the mock drill of blood spills cleaning. In this session, we have covered the points the identification of different hazardous materials uses in the hospital; what should be action taken while major spills happen? Which type of hazmat kit should be uses for the spills of that particular hazardous chemical? What is the cleaning & disposal procedure after cleaning of hazmat spills?

04:50 – 04:55	Vote for Thanks
05: 00	Training Close

Shantappa S. Patil

Professional Development Program Report

Department: Housekeeping

Venue: Venus Hall

Date: 21.06.2019

Time: 9 AM to 5 PM

Topic: Disaster Management

Trainer / Speaker: Mr. Bapurao P. Yadav.

The PDP was conducted on the above mentioned date. Details of the program are as under:

Sr. No	Details	Details
1	Total number of participants	17
2	Total duration of the program	8 Hrs

Session 1 – Introduction of Disaster Management

Session 2 – Explanation of receiving patient's category vice distribution.

Session 3- Explanation of work and responsibilities.

Internal Disaster: Inside the campus, fire, explosion, hazardous material spill or release, rooting of tree, building collapse etc.

External Disaster: Outside the campus.

Minor- Incident involving small no. of casualties (less than 10)

Major- Incident involving large no of casualties (more than 10)

Disaster threat effecting the hospital or community(nearby fires, Earthquakes, railway accident, flooding , cyclones, explosions etc.

What is the Patient flow during internal/ external disaster ?

- 1) Call received at control room / hospital board

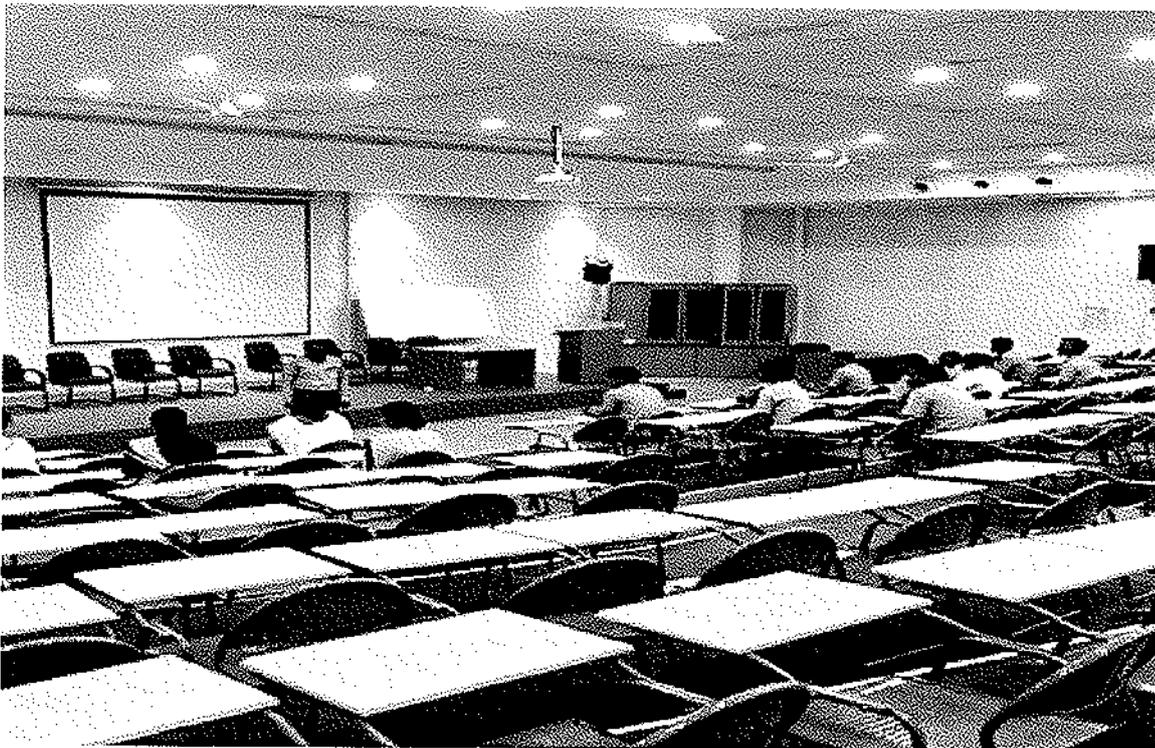

- 2) Code alert system (receiving center confirms the call and incident)
- 3) Code announced (Code Red DM) – Medical director only
- 4) Administration informed by incident commander(medical director)

As per disaster management patient shall be categorized as per their causalities

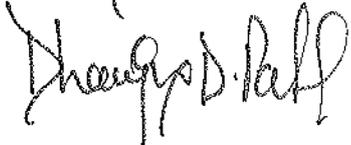

- A) Red = First Priority, Patient shall be shifted to causality ICU
- B) Yellow= Second priority , Patient shall be shifted to causality
- C) Green = Third Priority, Patient shall be shifted to OPD
- D) Black = Dead patient shifted to pharmacy passage.

Circular

Date: 23/06/2019

To

All Concern,

KIMSDU, Karad

Professional development training of all concerned staff will be conducted as per the below schedule.

It is requested to all concerned HoDs / Incharges to ensure arrangements are made accordingly to facilitate maximum attendance.

Department: Biomedical Engineering Department

Venue: Biomedical Engineering Department

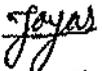

Date: 25/06/2019

Time: 9.00AM To 5.00PM

Topic: Equipment Training (syringe & infusion Pump)

Trainer / Speaker: Mrs. Jaya Chavan

Yours Sincerely

Jaya Chavan

BME

Professional Development Program Report

Department: Biomedical Engineering Department

Venue: Biomedical Engineering Department

Date: 25/06/2019

Time: 9.00AM To 5.00PM

Topic: Equipment Training (syringe & infusion Pump)

Trainer / Speaker: Mrs. Jaya Chavan

The PDP was conducted on the above mentioned date. Details of the program are as under:

Sr. No	Details	Details
1	Total number of participants	02
2	Total duration of the program	8 hours

The entire training was divided into three sessions as below:

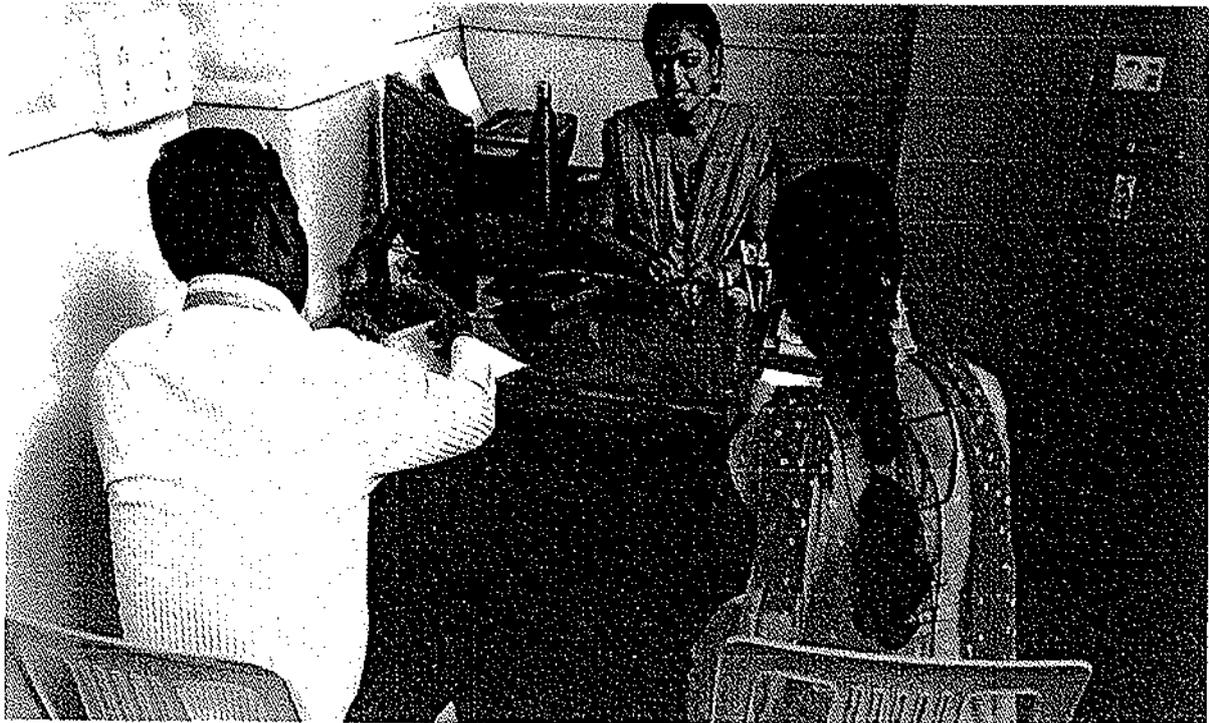

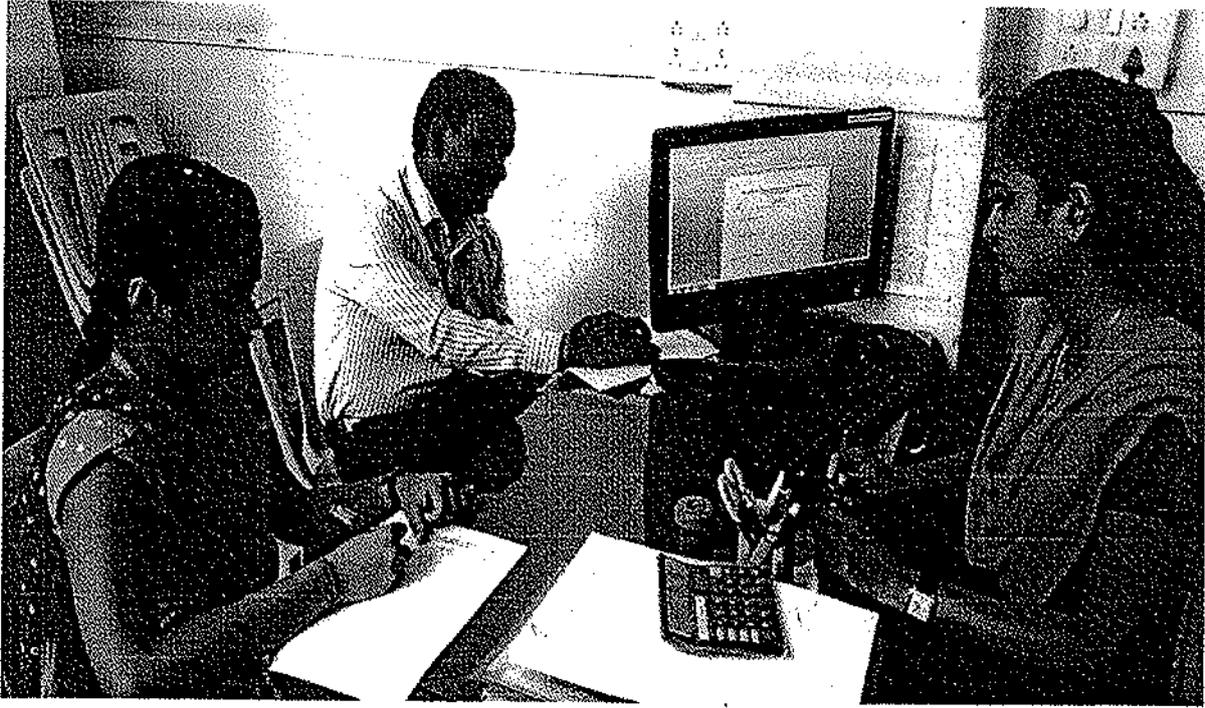

Syringe driver, also known as a syringe pump, is a small infusion pump, used to gradually administer small amounts of fluid (with or without medication) to a patient. Infusion pump is a medical device that delivers fluids, such as nutrients and medications, into a patient's body in controlled amounts.

Infusion pump draws fluid from a standard bag of intravenous fluid and controls the rate of flow. Because syringe pumps contain a maximum volume of 50 ml, syringe pumps are used to administer medications that have very small hourly volumes (for example, usually less than 5 ml/hr).
