## FOREWORD

### **Dr. Suresh Bhosale**

M.S. (Gen. Surgery),  
Chairman & Managing Trustee, Krishna Charitable Trust, Karad  
Chancellor, Krishna Institute of Medical Sciences  
“Deemed To Be University”, Karad  
Director, Krishna Cancer Institute

As we continue in our journey of providing health care and education our focus has always been the quest for excellence in all clinical health settings and academic programs. The Annual Report has a measure of all activities carried out during the year which includes new programs, workshops, national and international conferences, faculty achievements, research projects, students progression etc. The important notable feature of this year is seamless integration of subjects and faculties in health sciences and a multidisciplinary approach for working out a common platform for teaching, learning, research and innovation.

Our public health programs deserve special mention for the path-breaking initiatives undertaken in rural health management. Five villages have identified for integrated development of public health infrastructure which includes provision of clean drinking water, sewage treatment, solid waste water management, health care and education and training of village health and sanitation workers. The programme is showing very promising results in meeting our objectives.

This year is likely to go down in annals of world history for the COVID – 19 pandemic. The university hospital took up the responsibility in the fight against COVID from beginning and as the pandemic progressed we dedicated 500 beds (oxygen and ICU beds) thus becoming the largest dedicated COVID hospital in the south western Maharashtra.

The COVID pandemic also had a profound impact on the academic program in the last quarter as we had to rely on online teaching and assessments for maintaining continuity and completion of curriculum. The virtual platform was also utilized as never before for conducting workshops, CMEs, national and international conferences and joint academic and research projects. I hope pandemic situation improves in the near future for most of our health science courses are residential in nature.

Krishna Institute of Medical Sciences has however geared up for adapting to newer teaching methods utilizing the virtual platform.

The Annual Report committee headed by the Vice- Chancellor has worked hard to bring out this Annual Report in time. I appreciate the work carried out by all her team members in completing this report.

## MESSAGE

**Dr. Pravin H. Shingare**

Hon'ble Pro-Chancellor,  
Krishna Institute of Medical Sciences  
"Deemed To Be University", Karad, Maharashtra, India

It is my proud privilege to write for the Annual Report 2019-20 of Krishna Institute of Medical Sciences "Deemed to be University" (KIMSDU), Karad. This year was unique year for the University, as the country was affected by COVID-19. The lockdown period has made a great impact on the teaching and learning methodology. The first half of this year was routine period, while second half was special phase. The University concentrated more on saving the lives of the patients, coming to the Krishna Hospital and Research Centre. Krishna Institute of Medical Sciences (KIMS) was the first medical college in the private sector in the state of Maharashtra to start RT-PCR testing with approval from NABL and ICMR. Most of the teaching work was conducted online and additional man power of Doctors and Nurses was deployed for patient care. The hospital saved many lives and was a boon to the population of Satara district.

Apart from great contribution in the field of public health, the KIMSDU also continued to serve the rural population through its extension activities and outreach programmes. The University is committed for the social cause. Knowing the rural health issues, changes were made in these activities and more concentration was given to the sanitation, hygiene, cleanliness, use of mask, so as to prevent the spread of viral infection with special emphasis on COVID-19 in the rural population.

This annual report of KIMSUD, Karad covers most of the measure activities and achievements in the field of health, academics, cultural and sports activities. The University will be participating in the NIRF ranking, as well as NAAC assessment process in this year, under the able leadership of our beloved Chancellor Dr. Suresh Bhosale. He has made immense contribution in the progress of the University, during this period because of his vast experience as Vice-Chancellor of KIMSDU, Karad, during the period 2005-2010. I sincerely thank the members of editorial board of this annual report for untiring efforts made by them during the preparation of this annual report.

### **Dr. Vedprakash Mishra**

Chief Advisor to Chancellor,  
Krishna Institute of Medical Sciences  
"Deemed To Be University", Karad, Maharashtra, India

It gives me immense pleasure, satisfaction and heartening to note that **Annual Report** of the Krishna Institute of Medical Sciences (Deemed to be University), Karad is being brought out for the **Academic Year 2019-20**, which covers the entire '**plethora**' of happenings in the said year specially incorporating there under the various initiatives undertaken with relevant authorities towards the mitigation of the concerns and challenges and the same would be a '**handy referral piece**' of reading of all the '**relevant informational details**', which are of '**consequence and relevance**'.

The '**Annual Report**' also operationally turns out to be a mirror reflection of the '**happenings and doings**' by the various constituent colleges under the ambit of the University. It brings out their '**creative and committed**' activities in various domains, which pertain to teaching and learning, research, extension and also sustainable development of the society, as a whole.

An institution of higher learning cannot afford to have an '**ivory tower image**' for themselves because that would amount to they being chopped and severed off from the '**societal obligations**' and '**ground realities**' thereto.

Krishna Institute of Medical Sciences (Deemed to be University), Karad with its constituent units is committed to catering to the '**cause**' of society in an '**exemplary**' manner, so as to render the best that is expected and desired out of it. The Annual Report categorically brings out this very aspect of commitment of the University to the larger societal good with a sense of accountable responsibility. I record my sincere appreciation for the Editorial Board and their team for untiring efforts in '**actualizing**' the same.

## MESSAGE

**Dr. Neelam Mishra**

Vice Chancellor,  
Krishna Institute of Medical Sciences  
"Deemed To Be University", Karad, Maharashtra, India

It gives me immense pleasure to note that the Annual Report of Krishna Institute of Medical Sciences (Deemed to be University), Karad is being brought out for the Academic Year 2019-20.

The achievements and attainment that the University accomplishes is embodied in an Annual Report, which is a handy document for all the stakeholders to make this objective evaluation.

The University has to emerge as a focal Centre of Excellence, not only in academics but also in other associated walks of activities resulting in generation of not only a good breed of health professionals, but also good citizens and ideal individuals. Yet another important aspect, which has to be dispensed, is a qualitative improvisation in the health care services to be rendered to the needy and poor in the region. It is by virtue of the due dispensation of these tasks the University will not only stand out as an effective instrument of generating a desired academic ambience, but will also emerge as one of the focal points of bringing in a significant augmentation in extension of health care services.

The Annual Report of the University has been formulated for the Academic Year 2019-20 wherein the salient features of its achievements have been incorporated diligently with an immaculate presentation. The compilation and the depiction therein is aesthetic, artistic and connotes all that is required in a handy and free flowing manner.
